
FEDERAL REFERRAL — 9-LINE

"Cash for Kids 2: Operation Detroit Plantation"

Format: GTA 08-01-004 (MEDEVAC 9-Line Request)

UNCLASSIFIED // LAW ENFORCEMENT SENSITIVE

In a MEDEVAC, Lines 1–6 get the bird in the air.

Lines 7–9 transmit en route — the crew reads them in flight.

**Same here. Lines 1–6 tell you WHERE, WHO, HOW MANY, WHAT YOU
NEED, WHAT THE CRIMES ARE, and HOW HOT THE ZONE IS.**

That's enough to open a file and call me back.

**Lines 7–9 are the evidence inventory, actor profiles, and
institutional contamination map. Read those once you're moving.**

**Full packet (18 sections, ~2,000 lines, 7 evidence categories)
follows this cover.**

In a MEDEVAC, the 9-line gets a helicopter in the air before the medic finishes bandaging. You don't wait for a full patient history to launch.

Lines 1–6 are your launch authority. ~400 children are in schools run by a 9-time convicted felon with a fake law degree and a BMF aunt. His financial officer is a drug trafficker with 5 bankruptcies. Six judges in his network sit on benches that control 50,000 cases.

The patient history is in the packet. But the bleeding started 14 years ago. This is the 9-LINE. Get the bird in the air.
